

Forklift Spreader Bar

Spreader Bar for Forklifts - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader manufacturer all over the world. They are a dedicated manufacturer of spreaders meant for a lot of various applications like for example the swop bodies, trailers, and handling of containers.

Engineering is done in-house by way of using all the newest FEM tools and CAD systems. The ELME company presently employees over one hundred twenty five staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The ELME product series offers spreaders for different container and trailer handling operations. A few of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a huge variety of attachments.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by utilizing quality parts in order to ensure dependability and excellent standards. Major features of ELME include design simplicity, market feedback and inventive modular spreader concept.
